

**Scottish Federation of Model Boat Clubs
Competition Rules**

SEMI-KIT JUDGING RULES

This class is for models built from a commercial hull with scratch built superstructure and fittings or kit models that have been heavily modified. Modifications must be declared.

Enhancements (features) must also be declared and may be awarded extra points.

- 1 The model will be judged on the table and does not need to be sailed.
- 2 The model must have been built by the entrant.
- 3 Judging will be based upon:
 - a Realism;
 - b Details;
 - c Degree of difficulty;
 - d Quality of Workmanship;
 - e Quality of Finish.
- 6 There is a Judges bonus which may be used if there is a tie.
- 7 Judging is done by two or more judges who should be independent if possible; if this can not be arranged then a judge will not judge a model entered from their own club.
- 8 Models entered in this class cannot be entered in any other scale class during the same competition.
- 9 Winning models may not be re-entered in this class in a future competition.
